

Become our partner! Help children to shape their own future.

— With your financial support you empower children and young people to have access to education – the key to more independence.

By supporting projects, you become part of a selected fellowship of people in which we strengthen a community for 25 years. The special thing about our organisation: every euro donated goes 100% towards the project.

**We provide access to
education. Worldwide.**

Become our partner for a better future.

“Our mission is a world where all children have equal opportunities”

Children need education in order to shape their future in a self-determined way: we are committed, worldwide, to help as many children and young people as possible have a better life. It is important for us to help them to help themselves. The PATRIZIA Children Foundation builds schools, children’s centers and hospitals with the support of its donors. What makes it special: together with our project partners we lead the projects to long-term success with the help of local expertise. In this way we strengthen local identification, pride and a sense of responsibility. More than 220,000 children and young people on 4 continents have already benefited from our projects and can now look forward to a better future. The sponsors and friends of our foundation are part of a fellowship, united by their desire to help children in a sustainable way, to promote humanity and to use their resources and abilities to change lives.

Would you like to be part of this fellowship?

We would be pleased to make you an individual offer on how you can use your commitment specifically for your **corporate social responsibility programme** or make a difference as a private donor. Please contact us – we look forward to getting to know you.

Yours, Wolfgang Egger
Initiator of the PATRIZIA Children Foundation

Only with the support of strong partners is it possible for the PATRIZIA Children Foundation to provide children with a safe home, health care and access to education.

Pierre’s
TALE OF HAPPINESS

“MY IDEA OF
HAPPINESS
IS BUILDING A
HOME FOR LOTS
OF PEOPLE”

“None of this would have been possible without the chance to live and attend school at the PATRIZIA Vocational Training Center”

Pierre’s tale of happiness began at the PATRIZIA Vocational Training Center in Ntarama, Rwanda. Today the builder is self-employed and builds homes for families. He is particularly happy that he is supporting the local economy. “I don’t know what would have happened to me without this opportunity”, says Pierre and smiles. Today he lives in his own house and is able to send his children to school.

Pierre, 33,
Rwanda.
