**“Together we can build
better futures.”**

It all started in 1999 with a vision of giving children access to education – world-wide. Children need education in order to shape their future in a self-determined way: we're committed to helping as many children and young people as possible to enjoy a better life.

The PATRIZIA Foundation creates an infrastructure for education – through schools, accommodation and hospitals – with the support of its donors.

What's special about our approach is that we work with selected partners to ensure projects succeed in the long term, also with the help and involvement of local experts.

We've already helped more than 250,000 children and young people since setting up the foundation.

Our sponsors and the friends of our foundation are part of a fellowship, united by a desire to help children in the long term.

Would you like to be part of this fellowship?

Please contact us – we look forward to getting to know you.

Yours,

Wolfgang Egger
Founder of the
PATRIZIA Foundation

WE PROMISE

Every project will last at least 25 years

Every euro multiplies into two, three or four!

100

cents out of every euro go towards a project

More than

250,000

children and young people have been offered access to an education, accommodation and medical care

Our core values and principles

Participation

Trust

Reliability

Agility

Optimism

**You can
make a
difference.**

Creating value for generations

We think sustainably. Because it's important to make a difference in the long term. And that's why every donated euro goes 100% into projects.

Impact investment

We draw on real estate expertise offered by our close relationship with PATRIZIA and understand how to run projects successfully. We promise that every euro will multiply into two, three or four.

Partnership with experts

By working in close collaboration with selected partners, we invest successfully in social development. It's important to us that our partner organisations share in our values and philosophy.

We create educational infrastructure – worldwide.

Each project is carefully selected and tailored to the needs of the children in the respective community.

We visit our facilities regularly and maintain permanent contact with our partners and the children.

We and all our local partners promise that every project will last at least 25 years. We want to make a difference in the long term.
